

# DECIPHeR Alliance Fact Sheet

The **Disparities Elimination through Coordinated Interventions to Prevent and Control Heart and Lung Disease Risk (DECIPHeR) Alliance** is funded by the Center for Translation Research and Implementation Science (CTRIS) Branch of the National Heart, Lung, and Blood Institute (NHLBI).

## What to Know about DECIPHeR:

Funded September 2020 - August 2027

Made up of seven Implementation Research Centers (IRC) and one Research Coordinating Center (RCC)

Addressing the unequal heart and lung disease burden across racial/ethnicity and sex/gender groups and socioeconomic status

Researching implementation strategies to effectively deliver evidence-based Interventions

## Overall Goal:

To conduct a late-stage T4 implementation project to test strategies for the optimal uptake and continued sustainability of proven-effective interventions that will provide generalizable knowledge to reduce or eliminate disparities in cardiovascular and pulmonary health, disease, and disease risk factors in high-burden communities in the U.S.

## Implementation Research Centers:

- New York University
- Northwestern University
- Tulane University
- University of California, Los Angeles
- University of Colorado, Denver:
- University of Illinois, Chicago
- Johns Hopkins University and University of Michigan

## Research Coordinating Center:

University of North  
Carolina, Chapel Hill
